

## WilsonPro Cellular Network Scanner 5G kit Product Details

The WilsonPro Cellular Network Scanner 5G kit includes everything for professional installers to perform a comprehensive cellular site survey. The WilsonPro Meter kit comes with one App license and instructions on how to download and activate the Cell LinQ App for an Apple or Android device.

State-of-the-art engineering enables access to accurate information required to effectively design, install and validate performance for various types of cellular amplifier systems, all at the touch of a button.

The LinQ meter app works in tandem with the meter and allows you to view, tune and store 5G tower data and carriers. A survey is performed by linking the WilsonPro signal meter to the Cell LinQ app via Bluetooth on either an iOS or Android supported device.

- Tracks 5G and 4G signals, including C-Band and CBRS signals
- Scans for nearby towers and carrier networks, regardless of the phone carrier
- Identifies cell frequencies, signal strength and quality
- Pairs with the Cell LinQ app from WilsonPro for easy management
- Details Location, Tower ID, Downlink Frequency, Distance to Tower
- 5G Signal Strength (RSRP) and Signal Quality (RSRQ)
- Exports data into an Excel file
- Kit includes scanner, USB-A charger, USB-A to USB-C charging cable, SMA-N-Male 3' jumper, carrying case, and Cell LinQ app insert

Durable Case

Meter and Dipole Terminal Antenna

3" SMA-Male to N-Male Jumper Cable

Charger and Power Cord

### Technical Specifications

<b>CABLE</b>	SMA-N-Male 3" jumper Cable
<b>POWER</b>	USB-A charger, USB-A to USB-C charging cable
<b>DIMENSIONS</b>	12.75 x 4.25 x 9.25 in
